

San Diego California Survey of Adults 5/9/07 - 5/10/07 MOE +/- 4.1 percentage points

301. A Superior Court judge recently ordered the City to dredge much of the sand from Casa Beach to return the beach to a pool for swimming. This would give the seals less space to rest and could drive them away entirely. The dredging would cost the City roughly \$500,000. The City is appealing the decision. Do you ... that the beach should be dredged?
