Members of the San Diego City Council
202 "C" St., 10th Floor
San Diego, CA 92101

Dear Councilmembers:

I understand that the Natural Resources and Culture Committee heard compelling testimony last December regarding an ordinance proposed by my friends at the Animal Protection and Rescue League (APRL) that would ban the sale of foie gras in San Diego. I hope that you will use your position as members of the City Council to support the ordinance and that the Committee will pass it to the Council for a vote as soon as possible.

As you know, foie gras is produced by cruelly force feeding ducks and geese until their livers become painfully diseased and engorged. Foie gras is nothing more than a diseased organ with a high price tag, and this cruel product has no place in America's Finest City.

I encourage anyone who has not done so already to watch a video narrated by Sir Roger Moore that documents animal cruelty investigations into this horrific industry. The video can be viewed at www.banfoiegras.org.

Thank you for your consideration. If you have any questions, I can be reached through Bryan Pease at APRL at 619-298-2373 Bryan@APRL.org.

Sincerely,

A handwritten signature in black ink that reads "Kathy Najimy". The signature is written in a cursive, flowing style.

Kathy Najimy
